I understand that I must treat the information in the PMP system as confidential healthcare information in accordance with federal and state law. I understand that inappropriate access or disclosure of PMP information is a violation of federal and state law, and may result in disciplinary action, revocation of PMP database access, civil penalties, and/or criminal action. I understand the PMP administrator will conduct auditing activities to monitor for unusual or potentially unauthorized use of the system. The information in the PMP database and reports generated from the information may contain errors resulting from the information submitted by dispensers. The Texas State Board of Pharmacy recommends independent verification of the patient prescription information with pharmacies and prescribers when prudent or necessary. The data available from other state Prescription Monitoring Programs is based on the data submitted by the dispensers in the specific state in accordance with their state's reporting requirements.
